Energy performance certificate (EPC)				
11 Toberwine Street GLENARM BT44 0AP	Energy rating	Valid until: <b>3 August 2033</b> Certificate number: <b>0041-2764-4588-2507-2421</b>		
Property type	Top-floor maisonette			
Total floor area	79 square metres			

## Energy rating and score

This property's current energy rating is D. It has the potential to be D.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

The graph shows this property's current and potential energy rating.

**Properties get a rating from A (best) to G** (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in Northern Ireland:

the average energy rating is D the average energy score is 60

# Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Granite or whinstone, as built, no insulation (assumed)	Very poor
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Wall	Timber frame, as built, insulated (assumed)	Good
Roof	Flat, limited insulation (assumed)	Poor
Window	Fully double glazed	Average
Main heating	Boiler and radiators, oil	Average
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Average
Lighting	Low energy lighting in all fixed outlets	Very good
Floor	(other premises below)	N/A
Secondary heating	None	N/A

### Primary energy use

The primary energy use for this property per year is 203 kilowatt hours per square metre (kWh/m2).

### Additional information

Additional information about this property:

• Stone walls present, not insulated

## How this affects your energy bills

An average household would need to spend £1,379 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £124 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Impact on the environment	This property produces	4.2 tonnes of CO2	
This property's current environmental impac rating is D. It has the potential to be D.	This property's potential production	3.8 tonnes of CO2	
Properties get a rating from A (best) to G (w on how much carbon dioxide (CO2) they produce each year. CO2 harms the environ	nt. You could improve this p emissions by making the	You could improve this property's CO2 emissions by making the suggested changes.	
Carbon emissions	This will help to protect the second se	he environment.	
An average household 6 tonnes o produces	<sup>D2</sup> average occupancy and	These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.	

# Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Flat roof or sloping ceiling insulation	£850 - £1,500	£123
2. Internal or external wall insulation	£4,000 - £14,000	£133

## Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

# Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name
Telephone
Email

Campbell Morris 02890777111 cm@meapro.co.uk

### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.
